

Find out about  
career paths of marine &  
climate scientists!  
What is their current job like?  
How did they get it?  
Which skills do they need?

## Seminar announcement

### Career Insights Online –

### WWF Germany & INTERACT Association

for Postdocs and young scientists enrolled in doctoral programmes at the  
Marine Graduate Schools in Bremen, Bremerhaven, and Oldenburg

**with: Dr. Janne Rohe, WWF Germany**

After her PhD in Marine Governance in 2018, Janne started her career as Project Manager at the International Centre for Marine Conservation at WWF Germany. Between her Master Degree in International Development Studies at Amsterdam University (in collaboration with University of Cape Town) and starting her PhD Janne had worked as Policy Officer for Sustainable Ecosystems at the World Future Council.

**and: Dr. Caroline Coch, INTERACT Non-profit Association**

Caro started working as Climate Science Communications Specialist at the Royal Meteorological Society (UK) already during the last year of her PhD, which she completed in 2019 (in permafrost sciences at AWI Potsdam). She then worked a few years as Polar Specialist for WWF-UK, mostly doing project management and outreach, and finally moved to the INTERACT Non-Profit Association as project manager when returning from maternity leave with her first child. In need of a mental challenge during her maternity leave, she started a business with two friends in North Wales which launched earlier this year – a beach sauna on a trailer ([www.saunawales.co.uk](http://www.saunawales.co.uk))! She is now juggling her 2 jobs whilst expecting her second child in the summer.

**Date & time: April 21, 2023 at 14:00 - 15:30**

Format: online meeting via *Cisco Webex Meetings* or *Zoom*

Language: English

Participants: maximum of 40

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: Please, register under this [link](#) until April 19

The seminar format "*Career Insights Online*" aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, e. g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
