

# Conference for Student Research!

HUMBOLDT-UNIVERSITÄT ZU BERLIN

21-22  
September  
2017

## CALL FOR CONTRIBUTIONS

Second interdisciplinary conference for student research,  
21-22 September 2017, Humboldt-Universität zu Berlin

### Forschung vermitteln – communicating research

For the second interdisciplinary conference for student research, we are looking for interesting contributions from student research projects or final year dissertations. Students can choose to give a talk or a poster presentation to inform about their research. In particular, we are seeking contributions that have the potential to demonstrate the relevance of the research subject to a non-expert audience, to interest others in student research and to encourage engagement beyond the own discipline.

### Submission of proposals

- ▶ Contributions are welcome in the form of short research presentations (10-15 Min.) or scientific posters.
- ▶ Please submit a description of your work of up to 3,000 characters (excluding references).
- ▶ The deadline for this call is **23 June 2017**.
- ▶ Submissions can be made online in either German or English:

<https://hu.berlin/forsch2017>

### Important Dates

**23 June** - Deadline for the  
submission of proposals

**28 July** - Feedback  
on the submissions

**21-22 September** - conference
