(Un)Doing Gender in Entrepreneurship Education

Stephanie Birkner

Davy Vercruysse

Does entrepreneurship education need to do or undo gender to increase entrepreneurshipin general and female entrepreneurship in particular?

Female creativity and entrepreneurial potential are an under-exploited source of societal and economic benefit! [1]

Reinforcing entrepreneurial education is one of the major missions of the EU to increase the positive impact of startups on its economies! [2]

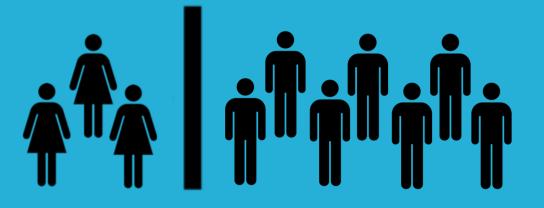

European Population [1]

52% 48%

Europeans taking the entrepreneurial plunge [1]

29% 71%

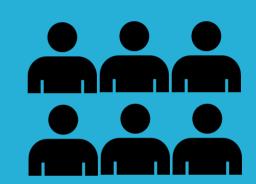

Young people receiving entrepreneurship education are more likely to start a business at some point later in their life! [2]
