

SEXUALITY

Sexuality must not be thought of as a kind of natural given which power tries to hold in check, or as an obscure domain which knowledge tries gradually to uncover. It is the name that can be given to a historical construct: not a furtive reality that is difficult to grasp, but a great surface network in which the stimulation of bodies, the intensification of pleasures, the incitement

So we must not refer a history of sexuality to the agency of sex; but rather show how "sex" is historically subordinate to sexuality. We must not place sex on the side of reality, and sexuality on that of confused ideas and illusions; sexuality is a very real historical formation; it is what gave rise to the notion of sex, as a speculative element necessary to its operation. We must not think that by saying yes to sex, one says no to power; on the contrary, one tracks along the course laid out by the general deployment of sexuality. It is the agency of sex that we must break away from, if we aim—through a tactical reversal of the various mechanisms of sexuality—to counter the grips of power with the claims of bodies; pleasures, and knowledges, in their multiplicity and their possibility of resistance. The rallying point for the counterattack against the deployment of sexuality ought not to be sex-desire, but bodies and pleasures.
