

Curriculum Vitae – Esther Ruigendijk

Last name: Ruigendijk
First names: Margrietha Esther (Esther)
E-mail: Esther.Ruigendijk@uni-oldenburg.de

Education:

1985-1991 VWO Johannes Calvijn Lyceum, Kampen (pre-university education)
1991-1992 1st year of Social Pedagogic Work, Groningen (polytechnic)
1992-1996 University of Groningen, Dutch Literature and Linguistics.
Specialization: Psycholinguistics.
1998-2001 PhD in Linguistics University of Groningen (promotor Prof. Dr. R. Bastiaanse), thesis ‘Case assignment inagrammatism: a cross-linguistic study’ defense March 14, 2002.

Work Experience:

Work: 01.04.2023 – now: *dean* of the faculty of linguistics and cultural studies, at the Carl von Ossietzky University Oldenburg, Oldenburg, Germany
01.04.2010 – now: *full professor* for Dutch Linguistics at the Carl von Ossietzky University Oldenburg, Oldenburg, Germany (full time- W2)
01.01.2016-31.12.2019: *vice president* for early career researchers and international affairs at the Carl von Ossietzky University Oldenburg, Oldenburg, Germany.
01.10.2005 – 31.03.2010: *junior professor* for Dutch Linguistics at the Carl von Ossietzky University Oldenburg, Oldenburg, Germany (full time)
01.09.2004 – 01.07.05: *junior teacher* at Utrecht University for the Master Speech and Language Processing and Disorders (Faculty of Arts, 0,2 fte)
01.09.2004 – 01.07.05: *policy advisor* at Utrecht University, working for the LOT (National Graduate School for Linguistics, 0,8 fte).
01.11.2001- 31.12.2004: *postdoctoral researcher* at Utrecht University, in the Pioneerproject ‘Comparative Psycholinguistics’, headed by Dr. Sergej Avrutin
November 2003/ 2006/ 2007/ 2008: freelance as a *teacher* at a school for higher vocational education (for Speech and Language therapy, in Utrecht)
01.01.98-30.11.2001 *researcher in training* at the university of Groningen researchproject: Case (assignment) in Aphasia.
1998-2000 part-time *teacher* of Aphasiology at the GFEB, Munich Germany (Gesellschaft für erwachsenengerechte Bildung mbH, adult education) (20 hours per year).
01.12.96- 31.12.97 as a *language pathologist* in the Edith-Stein-Fachklinik für Neurologie und Orthopädie in Bad Bergzabern, Germany (in a rehabilitation center).

Working visits

1999 three months visit to Potsdam University (Germany) for PhD project
 2000 one month research visit to St. Petersburg, Russia, for PhD project
 2008 one week visit to dr N. Friedmann, Tel Aviv University Israel (Minerva grant)
 2009/2011/2013 one week visit to prof. dr. N. Friedmann, Tel Aviv University Israel (COST STSM travel grant)
 2012 one week visit to prof. dr. L. Tuller & P. Prevoste, Tours university, France (ERASMUS)
 2012 one week visit to prof. dr. A. Belletti, Siena university, Italy (Erasmus)
 2016 two months visit to prof. dr. N. Friedmann, Tel Aviv University Israel
 2018 10 day visit to prof. dr. N. Friedmann, Tel Aviv University Israel
 2020 two months visit to prof. dr. J. Rispens, University of Amsterdam (Erasmus) (cancelled due to corona after two weeks)
 2022 two months (Oct-Nov) guest researcher with prof. dr J. Rispens, University of Amsterdam (Erasmus)

Languages:

Dutch: mother tongue
 English: fluent
 German: fluent
 French: some basic knowledge (three years of high school)

Prizes & Grants

2022- now PI Sprung Project: *From hearing to Understanding for Participation in Society* (speaker: Ruigendijk, Financed by: MWK, 450.000 Euro)
 2012- now PI in Cluster of excellence Hearing for All (Applicant and speaker: Prof. Dr. Dr. B. Kollmeier), responsible for about 100000 Euro a year)
 2012 -2017 PI in Promotionsprogramm Signals & Cognition (Applicant and Speaker: Prof. Dr. C. Herrmann)
 2016 PI for Spitzenforschungsprojekt The effects of hearing impairment on grammatical processing and comprehension and its neurological underpinnings. (applicant Ruigendijk together with Prof. C. Thiel and Prof. J. Rieger) (62.500 Euro, 1 year) (Cluster-internal application procedure)
 2013 COST-STSM Grant for visit to cooperation partner prof. dr. N. Friedmann, Tel Aviv, Israel (1050 Euro)
 2013 ProNiedersachsen, Grant for organizing GALA 2013 (Generative Approaches to Language Acquisition, together with Prof. Dr. Hamann) (10.000 Euro)
 2013 UgO, Grant for organizing GALA 2013 (Generative Approaches to Language Acquisition, together with Prof. Dr. Hamann) (1500 Euro)
 2011 co-applicant GIF application (applied for 200.000, total sum granted 100.000) How can a teacher tell if a bilingual child has language impairment: A study of the language of Russian-Hebrew and Russian-German migrant children in preschool and school years.
 2011 Applicant DfG-Verlängerungsantrag Sprachverstehen und Sprachverarbeitung in akustisch schwierigen Bedingungen aus Audiologischer und psycholinguistischer Sicht (AULIN). ('Understanding language', about 250.000 Euro in total; other applicants: dr. T. Brand; Prof. dr. dr. B. Kollmeier; Prof. dr. C. Hamann; all University of Oldenburg, Germany)

- 2009/11 COST-STSM Grants for visit to cooperation partner prof. dr. N. Friedmann, Tel Aviv, Israel (1350 Euro; 1340 Euro)
- 2009 Preis der Lehre, Universität Oldenburg (Best teaching price, 2009)
- 2008 Applicant Nowetas (Nord-West-Universitas) grant for focus project ‘Kodewechsel und Entlehnung in „gemischten“ Sprachvarietäten aus Kontaktsprachen im Bereich des Slawischen und Germanischen’ (10.000 Euro; cooperation with prof. dr. G. Hentschel, university of Oldenburg, Germany. Title: Code Switching and borrowing in “mixed” language varieties from Germanic and Slavic contact languages)
- 2007 Niedersächsischer Wissenschaftspreis 2007; Kategorie Nachwuchswissenschaftler (Science Price for Junior researchers in Lower Saxony, Germany, 30.000 Euro)
- 2007 Minerva Short Term Travel Grant for Visit to cooperation partner (prof. Dr. N. Friedmann) in Tel Aviv, Israel (±1200 Euro)
- 2007 Co-applicant DfG-grant ‘Sprachverstehen’ (‘Understanding language’, about 500.000 Euro in total; other applicants: Prof. dr. dr. B. Kollmeier; Prof. dr. C. Hamann; dr. T. Brand; dr. M. Schönenberger, all University of Oldenburg, Germany)

Research experience

My research experience started in Groningen with my MA thesis on the production of determiners in Dutch and German agrammatic aphasia (supervisor: prof. dr. R. Bastiaanse). A similar line of research was pursued during my PhD studies, in which I focused on case assignment in aphasia, and studied this from a cross-linguistic perspective (Dutch, German, Russian, Hungarian, Hebrew) and with several methods (spontaneous speech analysis, sentence elicitation, picture description). During my postdoc position, I worked with (among other people) dr. Sergey Avrutin, and extended my experience on aphasia, switching to a slightly different topic (comprehension and production of pronouns) and different methodology (truth value judgment task, picture selection and cross-modal lexical interference, an online reaction time method). I also investigated the production and comprehension of pronouns and determiners in language development. Here too, the research was often cross-linguistic (Dutch, Spanish). After moving to the university of Oldenburg, I followed up on my research on agrammatic aphasia and normal language development (in cooperation with -among other- people prof. dr. Friedmann, Tel Aviv university, prof. dr. Schulz Frankfurt university, and prof. dr. Hamann, Oldenburg university).

I further increased my research experience, by studying language processing in healthy adults (work with prof. dr. Schumacher (Burkhardt)), focusing on the processing of pronouns and reflexives. I also cooperated with audiologists (e.g. prof. dr. Birger Kollmeier, dr. Thomas Brand), on a project on ‘understanding language’ in which we combined audiological and psycholinguistic expertise. Within the cluster of excellence Hearing for All, we follow up on this research, and examine sentence comprehension and processing in younger and older adults with and without hearing impairment, as well as hearing impaired children and children who are implanted with a cochlear implant (CI). The latter work is done in cooperation with prof. Friedmann (Tel Aviv) and Prof Hendriks (Groningen). Finally, I build up an ERP and eyetracking lab, and study code switching in foreign language learners, with the use of ERP (this work is done in cooperation with prof. Hentschel and dr. Zeller from the Slavic Department), as well as sentence processing. Recently, my cooperation with the neuropsychologists from the university of Oldenburg (Thiel, Rieger) are strengthened, we are jointly working on a neuroimaging project (fMRI) in which the effects of hearing impairment and hearing aids on sentence processing are examined.

Linguistically, my work focuses on pronominal elements, as well as word order effects in Wh-questions and relative clauses, and the role of morphosyntactic information on this (case, gender, agreement). This I aim to address from a crosslinguistic perspective with a focus on Dutch and German.

Teaching Experience:

- 2006-2023 course on first and second language acquisition (BA, Oldenburg, yearly)
- 2005-2023 introduction in Dutch linguistics (BA, Oldenburg, yearly)

2012-2015	Sentence processing from a cross-linguistic perspective (MA Oldenburg, 2 times)
2011/2015	A multilingual world, a multilingual brain. Code-switching. (MA, Oldenburg, 2 times)
2010/2011	a Germanic Sandwich, Dutch between English and German (MA, Oldenburg)
2010	Root Infinitives and DPs in language acquisition and disorders (MA, Oldenburg)
2009/2010	Dutch Morphology (MA, Oldenburg)
2009	Grammatical processing in a second/foreign language (MA, Oldenburg)
2008/2012	MA Course on Pronouns in Dutch (MA, Oldenburg, 2 times)
2007/08	Aspects of Second Language Acquisition (MA, Oldenburg)
2006/07	course on lexicon and morphology (BA, Oldenburg)
2006-2015	course on Dutch syntax (BA, Oldenburg, 3 times)
2005/06	historical and variational aspects of Dutch (BA, Oldenburg)
2004/05	course ‘neurolinguistics’ (MA, university of Utrecht)
2004	PhD course ‘theories on agrammatism’, LOT Summerschool (1-week)
2003-2007	course ‘grammatical disorders in aphasia’ (Post HBO (polytechnic) Speech Therapy Utrecht, 3 times)
2003/2004	guest class ‘Introduction aphasiology’ (for course Language processing & use by F. Wijnen, university of Utrecht, 2 times)
2002/3	course ‘Psychology of language’ (BA, university of Utrecht, 2 times)
2001	research course ‘Aphasia and & Syntax’ (MA, University of Groningen)
2001	Guest classes ‘Introduction in agrammatism’ (MA & PhD, University of Santiago de Compostela, Spain)
1999-2001	course ‘Diagnostic methods in aphasia’ (MA, University of Groningen, 3 times)
1999	Coordinating guest lectures on neurolinguistics (University of Groningen)
1999	course ‘Pragmatic aspects of aphasia’ (BA, University of Groningen)
1998-2000	course ‘Einführung Aphasiologie I und II’ (Introduction into aphasiology, adult education, München, Germany, 3 times)

(Co-)Supervising PhD, MA, & BA students

- PhD student R. Weijers *crosslinguistic study of wh questions in acquisition*
- PhD Student L. Hardebeck (Oldenburg, second supervisor, together with Prof. Ulla Licandro, FKI, started January 2023) *Language acquisition and participation of children with hearing loss*
- PhD student M. Reiner (Oldenburg/Groningen, double degree, started 2022) *The role of linguistic predictions and cognitive compensation in the interpretation of wh-questions*
- PhD student A. Hiemstra (Oldenburg, started October 2019) *Linguistic transfer between closely related languages in third language acquisition (German/English/Dutch)*
- PhD Student F. Reitsma (Oldenburg, started 2019) *Improvement of L2 fluency and reduction of foreign language anxiety through online formative assessment*
- PhD Student K. Hoppe (Oldenburg, started September 2014 -not finished) *Papiamentu-Dutch code-switching: an EEG study of the processing of Dutch loans in speakers of Papiamentu*
- PhD Student M. Chanturidze (Oldenburg, started May 2013, defended 2020) *Language acquisition in restricted auditory perception: the processing of prepositions in hearing impaired children*
- PhD Student A. Schouwenaars (Oldenburg, started November 2012, defended 2018) *Children’s use of morphosyntactic information*

- PhD Student H. Ziemann (Oldenburg, started November 2011, defended Sept. 2016) *Processing of pronouns in Dutch as an L2*
- PhD student A. Jochmann (Oldenburg, started April 2012, defended Okt. 2016) *The effects of time-manipulated speech on comprehension of syntactic complexity in agrammatic aphasia*
- PhD-student R. Carroll (Oldenburg, defense July 2012) in DfG project Aulin. Title: *Understanding Speech in Noise at the Syntax-Prosody Interface.*
- PhD-student S. Jonkers (Oldenburg, defense Oct. 2013). *The acquisition of modal verbs in Dutch child language.*
- Several MA and BA-theses (Oldenburg), on among other on: normal and impaired language acquisition, second language acquisition.
- PhD-student (N. Vasić, Utrecht university) on cross-linguistic, cross-population investigation of sentence processing (defense on Oct. 3rd 2006)
