Seminar announcement

Career Insights Online –
Federal authority & national research services

for young researchers enrolled in doctoral programmes at the Marine Graduate Schools in Bremen, Bremerhaven, and Oldenburg

with: Dr. Patricia Slabon
works at the Federal Maritime and Hydrographic Agency of Germany (Bundesamt für Seeschifffahrt und Hydrographie, BSH) in Hamburg as Hydrographic Surveyor. She reviews seabed data from the North Sea and Baltic Sea e.g. for use in nautical charts but also develops new procedures to acquire and process the data.

Dr. Daniel Thewes
works for the University of Hamburg at the Department of Informatics, as part of the working group scientific computing, which is integrated into the German Climate Computing Center (Deutsches Klimarechenzentrum, DKRZ). He works with coupled 3D-ecosystem models used for eutrophication assessment.

Date & Time: June 25th, 2021 at 14:00 - 15:30
Format: online meeting via Cisco Webex Meetings
Language: English
Participants: maximum of 40
Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.
Registration: sea.courses@awi.de

The seminar format "Career Insights Online" aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the marine doctoral programmes in Oldenburg, Bremen and Bremerhaven. It focuses on career paths outside of academia and will give insights into job fields in, e.g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
