

Seminar announcement

Find out about
career paths of marine &
climate scientists!
What is their current job like?
How did they get it?
Which skills do they need?

Career Insights Online –

Consulting and Sustainable Energy

for young researchers enrolled in PhD programmes and postdocs at the marine institutes in Bremen, Bremerhaven, and Oldenburg

with:

Dr. Oluwatobi Oni

After gaining experience in Environmental Microbiology and Data Analysis during his PhD at University of Bremen, Tobi started his career as a Regulatory Consultant in 2017. While climbing up the career ladder working for 2.5 years at TSG Consulting and more than four years at Exponent he became Director of Food Systems consulting at Farrelly & Mitchell in May 2024.

Dr. Florian Riefstahl

Florian worked on several positions after he finished his PhD in Geosciences/ Geophysics during the first Corona wave in 2020, with a strong focus on data analyses and development of workflows. He used his skills at the regional authorities for geology in Saxony-Anhalt, as spatial analysis team lead / manager in the fields of mobile communications and in the project development of photovoltaic parks where he works for Blue Elephant Energy.

Date & Time: November 8, 2024 at 14:00 - 15:30

Format: online meeting via Zoom or Webex

Language: English

Participants: maximum of 50

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: sea.courses@awi.de

The seminar format "**Career Insights Online**" aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, e. g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
