

Find out about
career paths of marine &
climate scientists!
What is their current job like?
How did they get it?
Which skills do they need?

Seminar announcement

Career Insights Online – Governmental research & services

for young researchers enrolled in PhD programmes at the Marine
Graduate Schools in Bremen, Bremerhaven, and Oldenburg

with: **Dr. Ronja Paffrath**

works at the Federal Environment Agency (Umweltbundesamt, UBA) as research assistant in the Biocides department and reviews whether biocidal products and their active substances pose a risk for the environment.

Dr. Markus Kayser

works for the German Weather Service (Deutscher Wetterdienst, DWD) as a project scientist at the Lindenberg Meteorological Observatory – Richard Aßmann Observatory in the ground-based remote sensing department and pilots the implementation of new instruments into the DWD's operational network.

Date & Time: April 30th, 2021 at 14:00 - 15:30

Format: online meeting via BigBlueButton or Webex

Language: English

Participants: maximum of 40

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: ferdinand.esser@uni-oldenburg.de

The seminar format "**Career Insights Online**" aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, e. g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
