

Seminar announcement

Career Insights Online:

Find out about
career paths of marine &
climate scientists!

What is their current job like?

How did they get it?

Which skills do they need?

for young researchers enrolled in PhD programmes and postdocs at the
marine institutes in Bremen, Bremerhaven and Oldenburg

with:

Dr. Benedikt Heyerhoff

After completing his PhD at the ICBM, Ben changed his career from science to industry by joining **Bruker Daltonics in Bremen**. He now works as a software project manager and helps make the scientific instruments he once used for his studies work better in the real world by developing digital twin and maintenance software, driving global service digitalization and automation.

N.N.

TBA.

Date & time: February 20, 2026 at 14:00 - 15:30

Format: online meeting via BigBlueButton

Language: English

Participants: maximum of 50

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: ferdinand.esser@uol.de or via **Stud.IP**:

https://elearning.uni-oldenburg.de/dispatch.php/course/details?sem_id=e220a8a7e1f49e8a93b0739e1db0140b&again=yes

The seminar format **Career Insights Online** aims at introducing different job perspectives for marine and climate scientists in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, e. g. industry, (public) administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctorate, the career steps they took, as well as about work-family-life-balance. After their presentation, participants will have the opportunity to ask questions to the speakers.
