

Find out about
career paths of marine &
climate scientists!
What is their current job like?
How did they get it?
Which skills do they need?

Seminar Announcement

Career Insights Online – Companies in Bremen

for young researchers enrolled in PhD programmes at the Marine
Graduate Schools in Bremen, Bremerhaven, and Oldenburg.

with: **Dr. Sandra Bertermann & Dr. Mischa Ungermann**

Sandra and Mischa, after gaining their doctoral degrees in 2013 and 2017, both started their career in companies in the vicinity of Bremen. Sandra is project coordinator within the Business Area Microbiology & Diagnostics at **Bruker Daltonics** working closely together with R&D, product management, regulatory affairs, quality management, and finance. Mischa is working as data scientist at **PlanBlue** in a team of entrepreneurs and engineers whose mission is to protect, explore and reveal the unknown 95% of our ocean via a cutting-edge technology.

Date & Time: December 4th, 2020 at 14:00 – 15:30

Format: online meeting via Zoom or Webex

Language: English

Participants: maximum of 30

Target group: Early career scientists who are interested in broadening their horizon and getting new ideas for their own future career development.

Registration: cgloeckn@mpi-bremen.de

The new seminar format "**Career Insights Online**" aims at introducing different job perspectives in marine and climate science in the widest sense and offers the possibility to get in touch with former members of the Marine Graduate Schools in Oldenburg, Bremen and Bremerhaven. It focusses on career paths outside of academia and will give insights into job fields in, for example, industry, administration, consulting, and journalism. Speakers are asked to talk about their current position, the interdisciplinary skills they achieved during their doctoral phase, the career steps they took, as well as about work-family-life-balance. After a short presentation, participants will have the opportunity to ask questions to the speaker.
