

ICBM-Colloquium Summer 2022

- 27.04.22 Prof. Dr. Martin Könneke, ICBM, University of Oldenburg
(Host: Director ICBM)
„The cultivation of ammonia-oxidizing archaea - The organismic link between an ubiquitous phylotype and the nitrogen cycle“
- 11.05.22 Prof. Dr. A. Murat Eren, Helmholtz Institute for Functional Marine Biodiversity and ICBM, University of Oldenburg
(Host: Director ICBM/HIFMB)
„Integrated 'omics in the era of data-enabled microbiology“
- 25.05.22 Dr. Leonie Esters, Department of Earth Sciences, Uppsala University, Sweden
(Host: Dr. Ribas Ribas)
„Oceanic turbulence as driver for the air-sea gas exchange“
- 08.06.22 Prof. Dr. Alexandre Antonelli, University of Gothenburg, Sweden
(Hosts: Prof. Dr. Blasius + Prof. Dr. Zotz)
„EO Wilson Lecture“
- 22.06.22 Prof. Dr. Johanna Baehr, Institute for Marine Science, Hamburg
(Host: Prof. Dr. Wolff)
„Seasonal-to-decadal climate predictions: Why sometimes less is more“
- 06.07.22 Prof. Dr. Phyllis Lam, National Oceanography Center, Southampton, UK
(Host: Prof. Dr. Könneke)
„Into the deep: Microbial nitrogen cycling in the twilight ocean“
- 20.07.22 Prof. Dr. Sinikka T. Lennartz, ICBM, University of Oldenburg
(Host: Prof. Dr. Dittmar)
„With a little help from my friends - modelling competition and cooperation in marine microbial communities“

Online: <https://meeting.uol.de/b/mat-4m2-j9y>
Time: 17:15 (Central European Summer Time)

Guests are welcome!

Prof. Dr. Jörg-Olaf Wolff
