

## Microbiological Colloquium SS 2022

Time: 5:15 pm

Room: W15-1-146 & online at <https://icbm.de/mibio-colloq>

- 20.04.2022 **Matthias Wietz**, AWI Bremerhaven “**The FRAM Observatory: microbiome structure and function in the Arctic Ocean over time and space**”  
Host: Meinhard Simon
- 04.05.2022 **Ivan Berg**, Uni Münster, Institut für Molekulare Mikrobiologie und Biotechnologie “**Autotrophic CO<sub>2</sub> fixation in thermophilic bacteria**”  
Host: Martin Könneke
- 18.05.2022 **Gunter Wegener**, MARUM, Bremen “**Secrets of anaerobic gas and oil degradation by marine archaea**”  
Host: Martin Könneke
- 01.06.2022 **Christian Zerfaß**, Uni Jena, Institute for Inorganic and Analytical Chemistry “**Groundwater metabolome responds to recharge in fractured sedimentary strata**”  
Host: Bert Engelen
- 15.06.2022 **Taylor Priest**, MPI Bremen “**Temporal and spatial dynamics in the taxonomic and functional structuring of microbial communities at the Atlantic/Arctic interface**”  
Host: Meinhard Simon
- 29.06.2022 **Ashley Isaac**, New York University in Abu Dhabi “**Tad-mediated attachment in alga bloom-associated *Rhodobacterales***”  
Host: Meinhard Simon
- 13.07.2022 **Susanne Erdmann**, MPI Bremen “**The interplay of membrane vesicles and viruses in Archaea**”  
Host: Martin Könneke

Guests are cordially invited!
