

Geochemical Seminar

Winter Semester 2024/2025

The seminar will **start at 4:15 pm**.

12.11.2024 (Room W15-1-146)

Julia Warnatz (Marine Isotope Geochemistry):

Dust provenance in the Tasman Sea during the past 140,000 years

26.11.2024 (Room W15-1-146)

Christin Baensch (Organic Geochemistry):

tba

Hongyan Bao (Marine Geochemistry):

Molecular composition and bioavailability of water-soluble organic matter of aerosols in coastal cities in China: linkage to the air quality

10.12.2024 (Room W15-1-146)

Kiruba Krishnamurthy (Marine Isotope Geochemistry):

tba

07.01.2025 (Room W15-1-146)

Wiebke Freund (Marine Geochemistry):

Seasonal and Spatial Dynamics of Dissolved Organic Matter in the Baltic Sea

Corinna Mori (Marine Isotope Geochemistry):

The Interplay between Phytoplankton Blooms and High-Technology Metal Contamination: Toxication vs. Detoxification Dynamics

21.01.2025 (Room W15-1-146)

Serafina Endress (Marine Isotope Geochemistry):

tba

Jasper Zöbelein (Marine Geochemistry):

tba
