

## Microbiological Colloquium WS 2020/2021

Time: 5:15 pm, Room: <https://meeting.uol.de/b/ber-jkq-j4q-lar>

- 28.10.2020 **Karen Lloyd**, University of Tennessee, Knoxville, Departments of Microbiology  
“**Subsurface microbes and their connections to plate tectonics**”  
Host: Bert Engelen
- 11.11.2020 **Lucas Paoli**, ETH Zürich, Insitut für Mikrobiologie  
“**Genome-resolved analysis of the ocean microbiome reveals an unsuspected and biosynthetically talented bacterial lineage**”  
Host: Meinhard Simon
- 25.11.2020 **Jesse McNichol**, University of Southern California, Los Angeles, Department of Biological Sciences, Fuhrman Lab  
“**Using Global Metagenomes to Quantify PCR Primer Coverage and Integrating 3-Domain Amplicon Data with Models**”  
Host: Meinhard Simon
- 09.12.2020 **Dini Adyasari**, Leibniz-Zentrum für Marine Tropenforschung (ZMT), Bremen, AG Submariner Grundwasserabfluss  
“**Microbial community composition in submarine groundwater discharge affected sediments**”  
Host: Bert Engelen
- 20.01.2021 **Donald Pan**, Florida Gulf Coast University, Department of Ecology & Environmental Studies Algae & Cyanobacteria  
“**Investigations into the Ultra-deep Low Biomass Virosphere**”  
Host: Mara Heinrichs
- 03.02.2021 **Federico Baltar Gonzalez**, Universität Wien, Department für Funktionelle und Evolutionäre Ökologie  
“**The ‘gatekeeper’ of the C cycle: Extracellular enzymatic activity in the oceanic water column**”  
Host: Meinhard Simon

Guests are cordially invited!
