

# Microbiological Colloquium

## SS 2012

**17:15 h, ICBM Lecture Room W15-1-146**

- 18.04.12 **Thomas Riedel**, HZI, Braunschweig  
"Rhodopsin phototrophy in the oceans"  
(Host: H. Cypionka)
- 16.05.12 **Johannes Sikorski**, DSMZ, Braunschweig  
"Population genetics of environmental bacteria"  
(Host: B. Engelen)
- 30.05.12 **Matthias Wietz**, Uni Oldenburg, ICBM  
"Antibiotic-producing marine bacteria - ecological and biotechnological aspects"  
(Host: M. Simon)
- 13.06.12 **Meinhard Simon**, Uni Oldenburg, ICBM  
"Research on the Roseobacter clade during cruises with RV Polarstern"
- 27.06.12 **Stefanie Moorthi**, Uni Oldenburg, ICBM  
"Consumer traits and specialization alter consumer and prey diversity effects within and across trophic levels"
- 11.07.12 **Florin Musat**, MPI Marine Microbiology, Bremen  
"Anaerobic degradation of short-chain alkanes by marine sulfate-reducing bacteria"  
(Host: H. Cypionka)

Guests are welcome!

Heribert Cypionka
