

Microbiological Colloquium

WS 2011/2012

17:15 h, ICBM Lecture Room W15-1-146

- 02.11.11 **Markus Weinbauer**
Laboratoire d'Océanographie de Villefranche, Université Pierre et Marie Curie-Paris 6, France: „20 years of viral community ecology and viral oceanography: what have we learned?“
- 11.11.11 **Dr. Michael Pester**, Universität Wien
10:00 Uhr! „Sulfate-reducing microorganisms in low-sulfate peatlands: Overlooked key players in the intertwined biogeochemical cycles of peat soil?“
- 16.11.11 **Prof. Andreas Teske**, University of North Carolina
“New results from the Guaymas Basin hydrothermal vent sites: Thermophilic anaerobic methanotrophs and psychrophilic Beggiatoa”
- 30.11.11 **Dr. Hanno Teeling**, Max Planck Institute for Marine Microbiology, Bremen
“Bacterial response to a diatom-dominated phytoplankton bloom in the German Bight assessed by modern *omics techniques”
- 14.12.11 **Dipl.-Biol. Ivette Salka**, Leibniz-Institut für Gewässerökologie und Binnenfischerei (IGB), Berlin
„Does the phylogenetic affiliation of AAP communities reflect environmental features“
- 11.01.12 **Dr. Stefanie Moorthi**, Uni Oldenburg, ICBM
„Consumer traits and specialization alter consumer and prey diversity effects within and across trophic levels“
- 25.01.12 **Dr. Lorenz Adrian**
Department Isotope Biogeochemistry, Helmholtz-Zentrum für Umweltforschung Leipzig
„Dehalococcoides-related Chloroflexi in terrestrial and marine sediments”
- 08.02.12 **Dr. Verona Vandieken**, Uni Oldenburg, ICBM
“Microbial manganese reduction and acetate oxidation in marine sediments”

Guests are welcome!

Heribert Cypionka
