

Microbiological Colloquium

SS 2013

17:15 h, ICBM Lecture Room W15-1-146

(**Extra date:** Room W15-0-023, at 14:15)

12.04.13 **Pieter Visscher**, Ctr. for Integrative Geosciences, Univ. of Connecticut
Everything you always wanted to know about stromatolites but were
afraid to ask
(Host: H. Cypionka)

15.05.13 **Marco Blöthe**, BGR Hannover
Microbial diversity in manganese nodules from the Clarion Clipperton
Fracture Zone, Pacific Ocean
(Host: V. Vandieken)

29.05.13 **Bo Thamdrup**, University of Southern Denmark
Anammox and the "new" microbial nitrogen cycle
(Host: V. Vandieken)

(**Extra date:** 21:00, Online Lecture for C-DEBI, USA)

30.05.13 **Tim Engelhardt**, ICBM
Bacteriophages in the marine deep biosphere
(Host: B. Engelen)

12.06.13 **Janin Frerichs**, Univ. Frankfurt
The influence of supercritical CO₂ on microorganisms in formation
fluids of a North German gas field
(Host: B. Engelen)

(26.06.12 SFB Roseobacter, Status-Seminar in Braunschweig)

Guests are welcome!

Heribert Cypionka
