

Mobility Survey 2024 Faculty VI

for estimating the demand for parking spaces and bicycle parking facilities

Dr. Christine Beardsley, Construction and Infrastructure

Michael Ankele, Evaluation Human Medicine

General Information

Survey of students of Medicine and Molecular Biomedicine (MBM) in October 2024 to estimate the demand of car and bicycle parking spaces and bicycle parking facilities for the planned new buildings. The survey asked about the usual means of transportation to the university in winter and summer semesters.

In Medicine, 48% of students in years 1 – 5 participated in the survey, while in MBM, 29% participated.

Degree Program / Year	Response	Students**	Response Rate
MBM	29	100	29%
Medicine (1-5)*	251	518	48%
1	49	120	41%
2	59	120	49%
3	49	118	42%
4	39	80	49%
5	55	80	69%
Total	280	618	45%

*Only years 1 - 5 of medicine students were surveyed, as they are no longer at the university during the practical year (year 6).

**The allocation of students to years of study in medicine was based on the cohorts, so slight deviations from the actual course of study are possible.

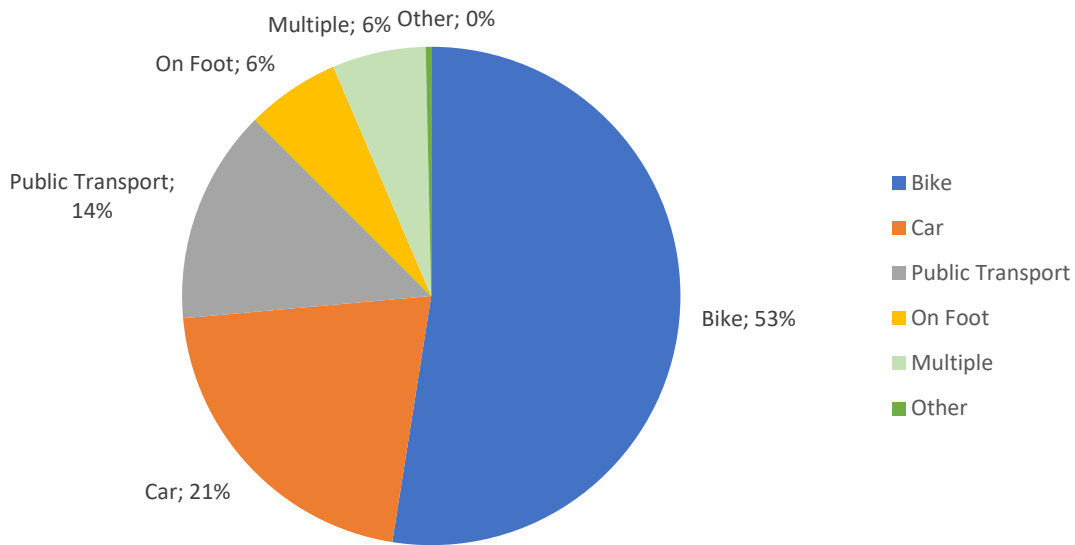

Evaluation – Overall Results

Winter Semester

Which means of transportation will you (likely) use to commute to campus during winter semester (>50% of the time)?

Winter Semester	Number	Share
Bike	147	53%
Car	59	21%
Public Transport	39	14%
On Foot	17	6%
Multiple modes of transportation in approx. equal proportions	17	6%
Other	1	0%
Total	280	100%

Winter Semester overall

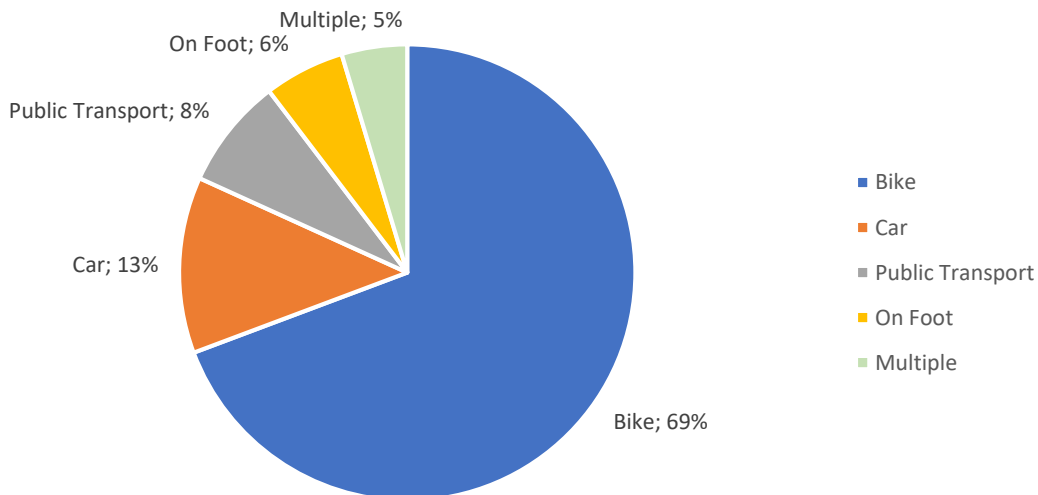

Summer Semester

Which means of transportation will you (likely) use to commute to campus during summer semester (>50% of the time)?

Summer Semester	Number	Share
Bike	194	69%
Car	35	13%
Public Transport	22	8%
On Foot	16	6%
Multiple modes of transportation in approx. equal proportions	13	5%
Overall Result	280	100%

Summer Semester Overall

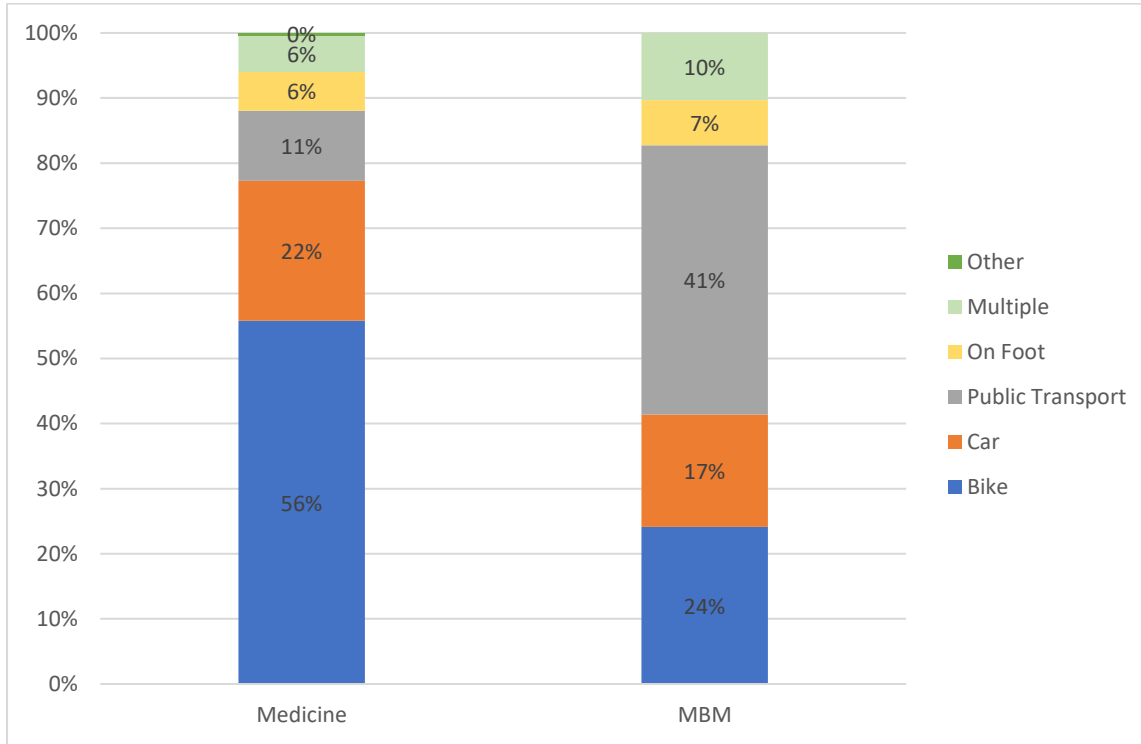

By Study Program

The results of the two study programs are considered separately below.

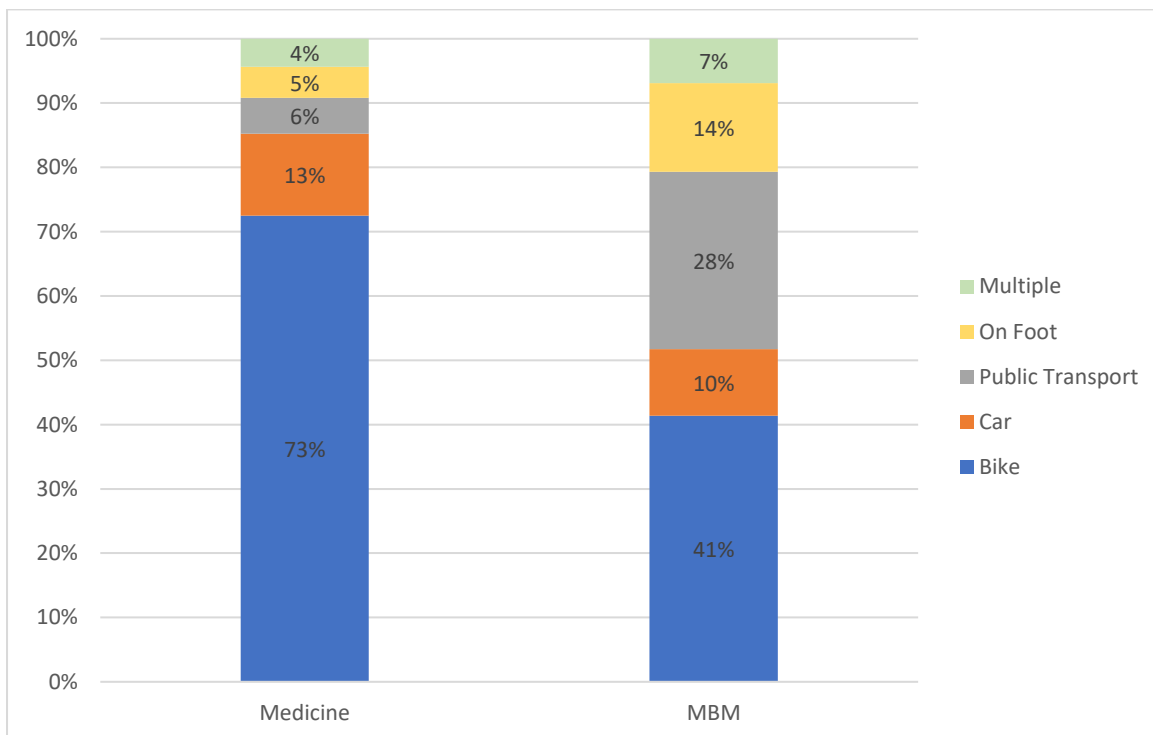

Winter Semester

Which means of transportation will you (likely) use to commute to campus during winter semester (>50% of the time)?

Summer Semester

Which means of transportation will you (likely) use to commute to campus during summer semester (>50% of the time)?

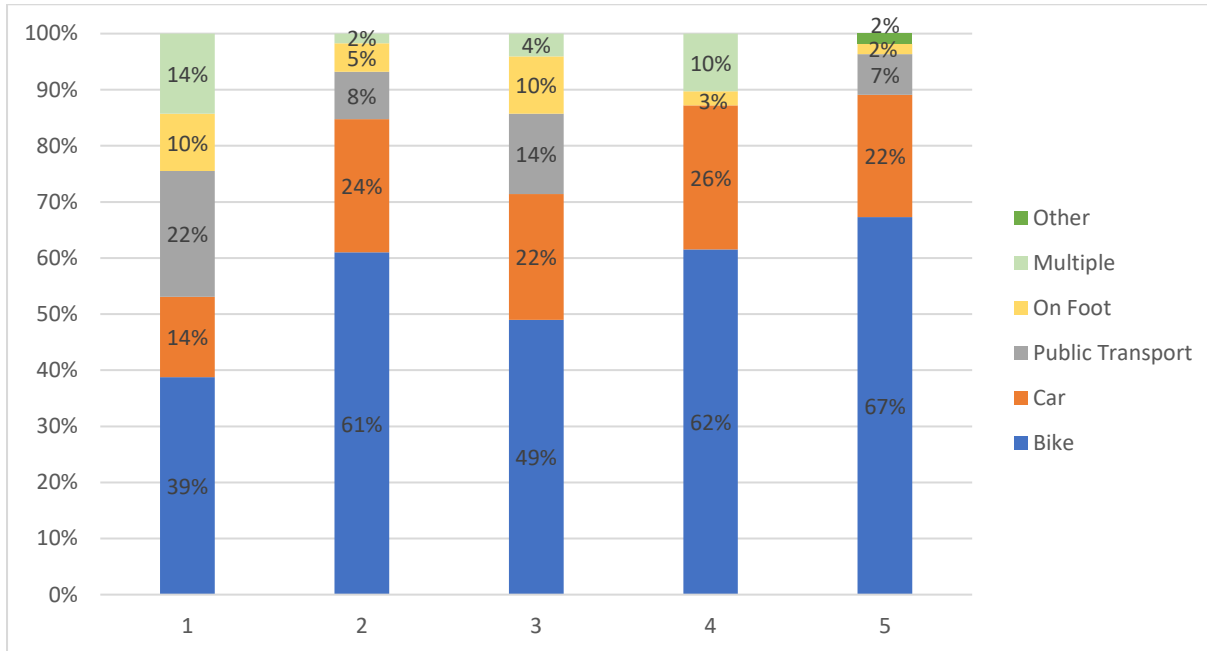

By Academic Year (Medicine)

The following presents the results for the Human Medicine degree program, categorized by responses in each academic year.

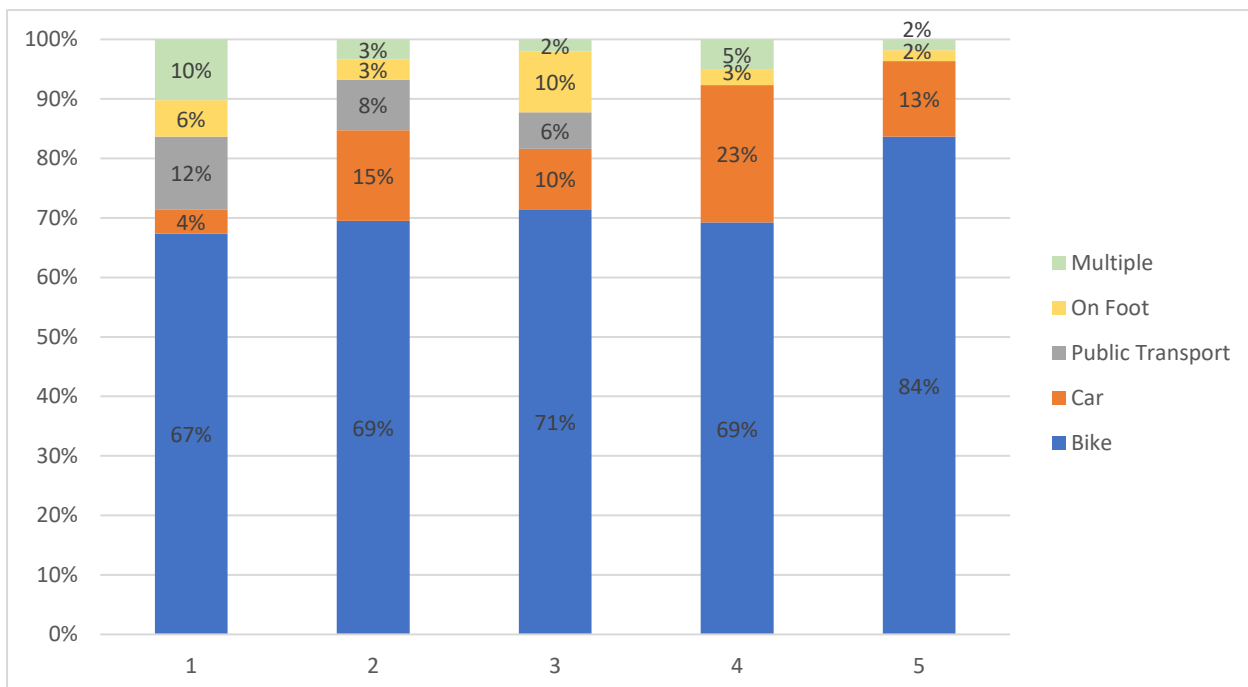

Winter Semester

Which means of transportation will you (likely) use to commute to campus during winter semester (>50% of the time)?

Summer Semester

Which means of transportation will you (likely) use to commute to campus during summer semester (>50% of the time)?

Comments, Requests, and Suggestions (Open Responses)

Your comments, requests, and suggestions:

Categorized Open Responses	Number
Accessibility	2
Short distances	1
Wheelchair accessible entrances	1
Construction	1
Fast construction	1
Break Room	3
Café / Kiosk	1
Microwave	1
Lunch break room	1
Parking spaces	29
Cargo bike parking spaces	1
More (covered) bike parking spaces	28
Traffic	1
Car-free campus, larger cycling paths	1
