Please go to the following link and fill out the questions:

[Addendum to Specific Eligibility Form M.SC. Neurocognitive Psychology](#)

In addition, please fill in the list of relevant completed courses (or equivalent work experience) below.

Please only list courses that prove the admission criteria listed in the left column.
(Listing additional courses does not improve your chances of admission.)
If applicable, also list extracurricular courses (e.g. online courses with certificates).

You need to provide documentation (an official transcript, certificate, proof of work experience). Only if the course title does not clearly indicate the contents of the course, you need to provide a course description (e.g. course names like psychology I).

Items marked with * are mandatory for admission. Therefore, only apply if you strictly fulfil these requirements.

If your study programme uses a credit system other than ECTS, please fill in the following:

How many credits are obtained in your study programme in total? T=

How many years does your study programme regularly take? Y=

Calculate ECTS for your course credits according to: $ECTS = \text{course credits} * 60 * Y / T$

category	course number	course title (as listed on certificate)	original credits	ECTS calculated according to the instructions above
5 ECTS quantitative methods/ statistics				
5 ECTS biological psychology/ neuroscience *				
5 ECTS (150h) experimental psychological/ neuroscientific project work * (e.g. thesis, laboratory internship, research project)				
(Relevant work experience or internships outside your studies may count.)	Please shortly explain the content of your research:			

Name

Additional qualifications

We can only count additional qualifications for which you provide a short explanation in this form and an additional written confirmation.

Relevant professional or scientific activities in the field of neuropsychology, neurocognitive psychiatry, neurology or cognitive neuroscience (work experience, internships, bachelor's thesis; at least 3 months full-time duration each). Please describe the contents. *(admission points: 0.75 points each, max. 1.5 points)*

Programming knowledge (e.g. Matlab, Python, R, Java, C++); at least 2 ECTS or 60 hours *(admission points: 0.5)*

Study-related stay outside of your home country with a minimum duration of 4 months *(admission points: 0.5)*

Voluntary social/community work (e.g. student council representative, „Freiwilliges Soziales Jahr“, „Bundesfreiwilligendienst“) with a minimum duration of 6 months *(admission points: 0.5)*
