"I have been very grateful to call Klagenfurt home these past several months. It's been an incredible experience to be able to take weekend trips to Vienna, Venice, and Munich while still having a home base and familiar faces to return to. I'm proud of the [language] progress I've made since being here. I started at the B2 level and now I can understand German movies without subtitles, and I was able to take and pass two economics classes taught and tested in German."

**Amanda, University of Alabama**

"At Alpen-Adria-Universität Klagenfurt I was given the chance to improve my German skills and learn new study methods. In addition, I met professors willing to help me in every issue I encountered during our Erasmus exchange. At the end of my stay,

I had the feeling I was part of a big community that shares common values, knowledge and experiences."

**Andrea, Università Cattolica di Milano**

"During the four months of exchange in Klagenfurt, I had the opportunity to learn from a series of enthusiastic and creative professors, experts in their fields of studies, who were very happy to share their knowledge.

The AAU is a place where students find and reassess themselves and their affinities."

**Arman, University of Sarajevo**
