

International DAAD Summer School on Racism and School

- 26 June 2026 in Oldenburg (Germany)
- 23 September 2026 in Groningen (Netherlands)
- 30 October 2026 in Gqeberha (South Africa)

A variety of interactive sessions will enable you as future teachers to create a learning environment in which no one feels discriminated against.

- How do teachers respond to forms of discrimination related to the category of “race” or “ethnicity”?
- What does a racism-critical education look like?
- How can we translate the theory into sound pedagogical practice?
