STUDENTISCHES ONLINE-JOURNAL  
DER UNIVERSITÄT OLDENBURG

Publication of Your Congress Contribution:  
Notes on the Special Issue

# Special Issue of „forsch!“- Online Student Journal of the University of Oldenburg

*Following the 2nd World Congress on Undergraduate Research (World CUR 2019), we would like to offer you the opportunity to publish your contribution in forsch!, the Online Student Journal of the University of Oldenburg. In 2020, a special issue of „forsch!“ will be published and the contributions will be made accessible to interested readers. For this purpose, you will find some information on how to submit your contribution. If you have any questions do not hesitate to contact us.*

## 1. The publication format

The publication and documentation of the congress presentations will take the form of a special issue open for all contributions presented at the World CUR 2019. „forsch!“ is an Open Access Journal first published in 2015 and pursues the goal of making student research visible and disseminating it.

## 2. What will be published?

In the special issue of „forsch!“, all contributions can be published, which were presented at the World CUR 2019. Possible formats are: research paper, research proposal or essay, each with a range of 8 to 10 pages (excluding bibliography). Video or audio clips as well as posters can be published with an accompanying text.

## 3. How to publish?

If you have decided to publish your congress contribution in „forsch!“ (which is not obligatory, only an offer!), you can register as author here:

<http://openjournal.uni-oldenburg.de/index.php/forsch/user/register>

A guide for preparing contributions for submission is available to you online. After submitting your contribution, it passes through a review process, similar to that of the congress, and is then either accepted

directly or made available to you with minor comments for a revision. The contribution then will be adapted to the layout of the journal and submitted to you in any case for the final view and authorization.

For more detailed information on possible formats, preparation guidelines, the review process and the latest news on the special issue, please refer to the Journal Website

[www.uni-oldenburg.de/forsch](http://www.uni-oldenburg.de/forsch)

The English version can be selected using the “Sprache” selection button in the right-hand side column.

## 4. Important dates

- 23 - 25 May, 2019: Presentation at the congress
- 31 August, 2019: Submission Deadline
- Spring/ Summer 2020: Publication of the special issue and notification of the authors

## 5. Contact

If you have any questions regarding the submission and assessment of your contribution or for more information on „forsch!“ in general, please do not hesitate to contact
