

Recognition - Documentation of Counselling

Name student / prospective student	student ID no.	degree programme

Type of recognition: Semester abroad Change of university

I have sought advice regarding my application for recognition from the subject representative or the module coordinator.
The following modules are potentially eligible for recognition on the basis of this consultation:

Submitted Module	Credit points / ECTS	Module to be recognised	Credit points	Comments / Notes	Date, signature, stamp of subject representative / module supervisor

I am aware that this consultation does not constitute a decision on my application. This documentation does not replace the official application for recognition. That will be sent to team Recognition: <https://uol.de/anerkennung>.

Please attach this documentation to the application. This may shorten the processing time. However, any waiting times remain unaffected.

Date, signature of student / prospective student
