

Dear sustainability enthusiasts,

Welcome to the 22nd edition of the newsletter that we publish as the university's climate protection management team. Here you will find small reports from the university's climate action and sustainability cosmos at more or less regular intervals. If you have recently joined us (yay!), you can view the old issues on the [website](#).

#### Current climate action

As announced in the last newsletter, this issue contains a whole series of event announcements. First of all, the only announcement without a city cycling reference: On Tuesday, September 24 at 10 a.m., we will present the current activities and projects of climate action management in a digital information event. The short version will be reported in the Senate on September 18, but if you are interested in the more detailed presentation and would like to talk to us directly, you can do so on September 24. At 11:30 we will do the same thing again in green, but in English. The link to the BBB room is [here](#).

#### Waiting list

We actually wanted to invite you to the bike coding on Monday, 09.09., but the offer has already met with so much interest that you can only register on the waiting list for the time being. However, you are of course still cordially invited to the opening of the bicycle parking facility in front of A01 at 11 a.m. and we look forward to seeing you there. You can find more information [here](#).

#### The little bike tour

Also on 09.09., we will be cycling a leisurely lap around the block in the afternoon as part of the city cycle tour. We start at 16:30 at the Mensavorplatz in Haarentor and should arrive back there after about 45 minutes. Last year's tour was a lot of fun and because we will be riding as a group, we can use the whole lane again. You can register [here](#).

#### 26129, and you?

A new addition to our event repertoire this year is the zip code breakfast. On Tuesday, September 17, you can enjoy a cup of coffee and chat with colleagues from your immediate neighborhood without any obligation. Maybe you'll find a ride, a good tip for a shortcut with a panoramic view on the cycle route or simply a nice chat. You can register [here](#).

#### The big bike tour

To add a few more kilometers to the end of the city cycling, we would like to draw your attention to the ADFC after-work bike tour. This will take place on 25.09., the penultimate day of the campaign period. Starting at 4:30 pm, you can cycle for about two hours through the Oldenburg countryside. The ADFC asks you to register [here](#).

You also have the opportunity to admire the winning pictures from the photo competition in A14 until the end of September. We also want to mention the Health Management lunchtime information session on bicycle ergonomics on Wednesday, September 19 at 1 pm.

We hope to see you at one or other of these events. If you would like to forward and recommend the newsletter, we would also be delighted!

Best regards & have a nice rest of the week

Anna Krämer  
Officer for university climate protection management
