

## Research Group **Models for hearing devices**

- Name: Jun. Prof. Dr. Tim Jürgens
- Main research areas: cochlear implants, speech intelligibility, models
- Interested in: combinations of acoustic and electric hearing, speech modulations, fundamental frequency (F0)
- Expertise: speech coding in CI, speech intelligibility modeling, psychoacoustics
- looking for expertise in: objective measurements, F0-perception, spatial and realistic acoustic scenes, clinical diagnostics and fitting
- E-Mail: [tim.juergens@uni-oldenburg.de](mailto:tim.juergens@uni-oldenburg.de)
