

Research Group **Human Genetics**

- Name: Prof. Dr. John Neidhardt
- Main research areas: retinal and neuronal diseases (e.g. visual impairment or mental retardation), pathogenic processes, development of therapeutic approaches
- Interested in: Ciliopathies; genome, exome, transcriptome analyses; mouse disease models; gene therapy
- Expertise: human genetics, molecular genetics, molecular biology, translational approaches
- looking for expertise in: CRISPR-Cas technology, iPS cell culture, and bioinformatics
- E-Mail: john.neidhardt@uni-oldenburg.de
