

# ICBM-Kolloquium SoSe 2018

- 11.04.18** Prof. Dr. Rainer Lohmann, Graduate School of Oceanography,  
University of Rhode Island, Narragansett, USA  
(Gastgeber Prof. Dr. Dittmar)  
„Presence, transport and fluxes of organic pollutants in the Arctic  
Ocean“
- 25.04.18** Prof. Dr. Ken Andersen, Centre for Ocean Life, Technical University of  
Denmark, Copenhagen, Denmark  
(Gastgeber Dr. Ryabov)  
„Characteristic sizes of life in the ocean“
- 09.05.18** Dr. Johan van der Molen, Royal Netherlands Institute for Sea  
Research (NIOZ), Texel, Netherlands  
(Gastgeber Prof. Dr. Zielinski)  
„Connectivity of larval stages of sedentary marine communities  
between old offshore structures in the North Sea: keep or remove?“
- 23.05.18** Dr. ir. Dedmer van de Waal, Netherlands Institute of Ecology  
(NIOO-KNAW), Wageningen, Netherlands  
(Gastgeber Prof. Dr. Hillebrand)  
„Global change impacts on the ecological stoichiometry of aquatic  
ecosystems“
- 06.06.18** Dr. Astrid Gärdes, Leibniz-Zentrum für Marine Tropenforschung,  
Bremen  
(Gastgeber Prof. Dr. Dittmar)  
„Biodiversity and lifestyles of free-living and particle-attached  
bacterioplankton in coastal ecosystems“
- 20.06.18** Prof. Dr. Erik van Sebille, Institute for Marine and Atmospheric  
Research, Utrecht University, Utrecht, Netherlands  
(Gastgeber Prof. Dr. Wolff)  
„Chasing Water: Lagrangian tracking of plastic and plankton through  
the global ocean“
- 04.07.18** Dr. Anna Rubio, AZTI Marine Research, Pasaia, Spain  
(Gastgeber Prof. Dr. Wolff)  
„Maine Litter in the southern bay of Biscay – The Life-Lema project“

**Ort:** ICBM-Hörsaal (W15 1-146)  
**Zeit:** 17.15 Uhr

Gäste sind herzlich willkommen!  
gez. Prof. Dr. Jörg-Olaf Wolff
