CROATIANS AND THEIR CUSTOMS/BEHAVIOR

Croatians are known for their strong coffee drinking culture, their socializing culture and are considered laid back. They might not be so open in the beginning but once they get to know you they are open and friendly. They pay a lot of attention to their appearance, especially when going out. Croatians do not have the tendency to chat with you while standing in line and waiting for something, but if you ask for help they will help you out. The majority of Croatians know English the exception being the older population.

Croatians are known to be very loud, especially the Dalmatians – as it is their temperament.

Making an effort to learn some Croatian words and phrases would be good as Croatians seem to really appreciate it.

CROATIAN CLIMATE

The Croatian climate is generally mild, with Mediterranean climate in the coastal region and mild continental climate in the northeast parts of the country. Zagreb has four seasons and is described to have continental climate. The summers are warm, with the average temperature of 22 °C that can be very humid. The winters are cold, with a high chance of snowfall, where the average temperature is 1°C and can go below 0°C. The fall and spring seasons are wet with high precipitation falls, where on average the day temperatures are around 15 °C but are known to drop to 7°C at night. Overall the weather is quite nice, especially since there is a good distribution of the type of whether as there are no extreme changes.

ELECTRICITY

The electrical supply voltage in Croatia and most of Europe is 220 volts. Home appliance stores are open from Monday to Friday, but usually have limited hours for the weekend.

CURRENCY IN CROATIA AND THE REGION

Croatia's currency is the Kuna (HRK); the current exchange rate can be checked on line at www.hnb.hr or www.oanda.com. Croatia does not use the Euro, but its neighbors, Bosnia and Herzegovina, Montenegro, Slovenia and Hungary will accept this currency, so it may be handy to have some Euros.

The Bosnian official currency is the Konvertibilna Marka (KM); the Hungarian official currency is the Hungarian forint. The Slovenian and Montenegrin official currency is the Euro.

Nominal values are:

COINS: 1, 2, 5, 10, 20, 50 lipa and 1, 2, 5 kuna

NOTES: 10, 20, 50, 100, 200, 500, 1000 kuna

1 kuna = 100 lipas

BANKS, EXCHANGE OFFICES AND ATMS IN ZAGREB

Credit cards, primarily Visa, MasterCard are accepted at most shops and restaurants.

Zagreb like most cities has cash points (ATMs) that are widely in use and can be found on busy streets, in commercial centers, at banks, main transport terminals and even in some hotels. All major international symbols are recognized and withdrawing should not be a problem. Using the ATM is probably the most convenient way for you to obtain Kuna. Note that most machines dispense only 100 & 200 Kuna notes. The maximum ATM withdrawal is 2,000 kuna per day.

The biggest banks in Croatia, like Zagrebačka banka or Privredna banka have their headquarters in Zagreb. This is why they have a lot of branch offices throughout the city. All of the other important banks have their branch offices in Zagreb.

Bank working hours

- 8 a.m. to 7 p.m. on work days (Monday to Friday)
- 8 a.m. to 1 p.m. on Saturdays
- The banks do not work on Sunday

Some of the banks names are: OTP, Privredna banka Zagreb, Erste, Raiffeisen or Zagrebačka banka. The Croatian word for bank is 'banka'. Bank tellers are used to doing business with tourists so they speak English.

MEASUREMENT UNITS IN CROATIA

In Croatia we use the metric system. The two common conversions are.

1 pound = 450 gram (0.45 kilogram)

1 inch = 2.5 centimeters (0.025 meters)

THE CITY OF ZAGREB

The city of Zagreb is the capital and the largest city in Croatia, located near the Sava River in the north central part of the country. Originally the city was a Roman town that has over the years changed a few different rulers until 1991 when they broke apart from Yugoslavia. The city itself has much to offer, a lot of which is accessible by walking or using public transportation services.

The city is very alive throughout the year, with many cultural activities and various festivals. The city is responsible for 38 cultural institutions; the most significant museums are the Zagreb Municipal Museum, Museum for Arts and Crafts and the Museum of Contemporary Art. TRANSPORTATION IN ZAGREB, CROATIA AND THE REGION

It is quite easy and fast to travel to other parts of Croatia and the region from Zagreb.

Zagreb Municipal Transit System or ZET (Zagrebački Električni Tramvaj) is the main transportation system for the city of Zagreb and one part of the Zagreb County. It uses buses, trams and cable cars to organize transportation. Students have a special student card with discounted monthly prices. ZET is known for its blue colored transportation, it's really hard to miss so will have no problem locating them.

The trams work from 4:00am to midnight and then have 4 tram lines for the night schedule. Make sure to check out the schedule and the routes online.

FOOD IN CROATIA

Places to buy food include: smaller mini-markets, supermarkets, fresh green markets restaurants, fast foods, and many more places. The Local cuisine is influenced by many surrounding cultures from Italian (especially around the coast), German, French cuisine (continental Croatia) to Hungarian. There are also some traces of Turkish or Greek influences, particularly in the fast foods and deserts.

There is a growing food culture taking place in Zagreb, this is why in the last few years many different types of food restaurants have opened up, from Wok places, to healthy fast food. Just in the old town and center there are many options to choose from.

The tap water in Croatia is drinkable, and of very high quality. The water contains a high mineral content, important to know when you use a dishwasher or an iron.

You can cook at home, which is a good option. You can also go to restaurants or students here usually eat at student restaurants ("menza"), where Croatian students have subsidized prices.

How can I avoid seafood? If seafood is present in a meal, the fact is usually stated with pride on the menu. Fish is called "riba" (reebah) in Croatian, and clams are called "školjke" (shcolke). To make sure, always ask the waiter.
