Apply online via uni-assist if you obtained a relevant Bachelor's degree or an equivalent qualification abroad; Further requirements are specified in the respective admission requirements:

www.uol.de/en/application/international-students/master

Application deadlines

www.uol.de/en/students/application/deadline

Language requirements

Proof of adequate language skills must be provided before starting the degree programme:

www.uol.de/en/application/international-students/language-requirements

Founded in 1973, the University of Oldenburg is one of the youngest universities in Germany. It is named after Nobel Peace Prize laureate Carl von Ossietzky, who was one of the most prominent journalists of the Weimar Republic.

A look into the future

How is climate change changing our lives? What will the hearing aid of the future be able to do? How will we share new knowledge? To what extent have marine ecosystems already changed? The University of Oldenburg offers study programmes and conducts research in many promising fields, from energy, hearing and educational research to medicine, marine biology and the social sciences. Interdisciplinary, international, responsible. And always open to new approaches.

Campus university with a community feel

With around 16,000 students enrolled in over 100 degree programmes, they are the beating heart of the University. Students are introduced to science and their future careers at an early stage. The University has successfully created an attractive learning environment by introducing various teaching formats, establishing good student-teacher ratios and designing a compact campus.

Open to new approaches

Want to start your own company? The University of Oldenburg is one of the best universities for start-ups in Germany: In the "Start-up Radar (Gründungsradar) 2022", it is ranked seventh nationwide in the "Large Universities" category.

INSTEP Initiation phase for international students

In addition to the German Language University Entrance Examination (DSH), INSTEP offers other useful services to help international students get off to a good start. The programme is also open to students in English-language Master's programmes and to refugees.

BACHELOR'S / STATE EXAMINATION

SINGLE-SUBJECT BACHELOR'S

R	E	Business Administration and Law – BA
		Biology – BSc
R	E	Chemistry – BSc
		Comparative and European Law – Hanse Law School – LLB
R	INT	Engineering Physics – B Eng
		Computing Science – BSc
R	E	Mathematics – BSc
		Sustainability Economics – BA
R	L	Educational Science – BA
		Education in Immigration Societies – BA
R	E	Physics – BSc
		Physics, Engineering and Medicine – BSc
R	E	Social Sciences – BA
		Environmental Sciences – BSc
R	E	Business Informatics – BSc
		Economics and Business Administration – BA
Extra-occupational degree programmes		
V, D	F	Business Administration (extra-occupational) – BA

DUAL-SUBJECT BACHELOR'S

R	E	English Studies – BA / BSc
		Biology – BA / BSc
		Chemistry – BA / BSc
R	L, C	Elementary Mathematics – BA / BSc
		Evangelical Theology and Religious Education – BA / BSc
R	L, C	Franco-Romance Studies – BA / BSc
		Gender Studies – BA / BSc

R	E, C	Geography – BA / BSc
		German Studies – BA / BSc
R	E	History – BA / BSc
		Spanish Studies – BA / BSc
R	L, C	Computing Science – BA / BSc
		Interdisciplinary Education – BA / BSc
R	D	Art and Media – BA / BSc
		Material Culture: Textiles – BA / BSc
R	D	Mathematics – BA / BSc
		Music – BA / BSc
